The conference email address used for this event: karlovitz@irisro.org (Alternate email address: karlovitzjanostibor@gmail.com).

The main goal of our conference is to promote the professional development in higher education, and to expand opportunities for publishing. At our conferences, we strive to create a supportive atmosphere and communicate with educators, researchers, academics. Thematically, we do not set boundaries as far as possible: our goal is to help develop existing research directions and individual interests while maintaining scientific excellence and consistency.

We use APA Style 6th Edition recommendations when designing studies. Make sure that the inter-text references overlap (in full) with the entries in the bibliography. We also endeavour to check the bibliographic items item by item and, if necessary, to refine and supplement them from databases.
